

MIM CAPSTONE PROJECT

EVALUATION GUIDELINES

EVALUATION CRITERIA

Students will be graded on a 0 to 10 scale. The evaluation criteria are the following:

1. Individual work and presentations (40%).
2. Teamwork (25%).
3. Final report (10%).
4. Company results (10%).
5. Peer feedback (15%).

Individual work and presentations

1. Knowledge and understanding of the area presented.
2. Thoroughness in the analysis, compared to other companies when necessary, explaining causes and drawing relevant conclusions.
3. Decision making based on the previous analysis and the environment.
4. Specific and relevant the goals, objectives, actions and forecasts.
5. Presentation skills, capacity to convey messages and answers to questions asked.
6. Content related to the area presented included in the presentation handed in (it is very important that in each presentation each member's role is clearly identified).

Teamwork

1. Company's strategy and performance (understanding the market and competitors' behavior).
2. Internal organization and distribution of roles and responsibilities (individual workload, responsibilities and presentation times).
3. Team coordination. Departments' specific decisions respond to the company's situation, strategy and objectives.
4. Response to the company's results and to market changes, anticipating competitors' actions.
5. Layout and structure of the reports handed in.

Company results

1. The company's accumulated profit.
2. Net income evolution.

Final report

1. Thorough analysis of the company's financial statements (including ratios) and sales figures over the simulated years.
2. Detailed analysis of the company's performance in the last simulated year, covering all management departments and drawing relevant conclusions.
3. SWOT analysis.
4. Coherent and rational business goals and objectives for the following virtual year.
5. Detailed decisions that respond to the previous analysis, covering all departments.
6. Accurate projected financial statements.

Peer feedback

At the end of the Capstone Project all students will fill out a questionnaire in which they will evaluate their peers' knowledge, attitude, commitment, work, team support and leadership.

The Capstone Project is completely done in an online format. Students not connecting online will be considered absent. Students not attending one CEO meeting will be given a zero individual grade for that meeting. Students missing two CEO meetings will automatically fail the course.

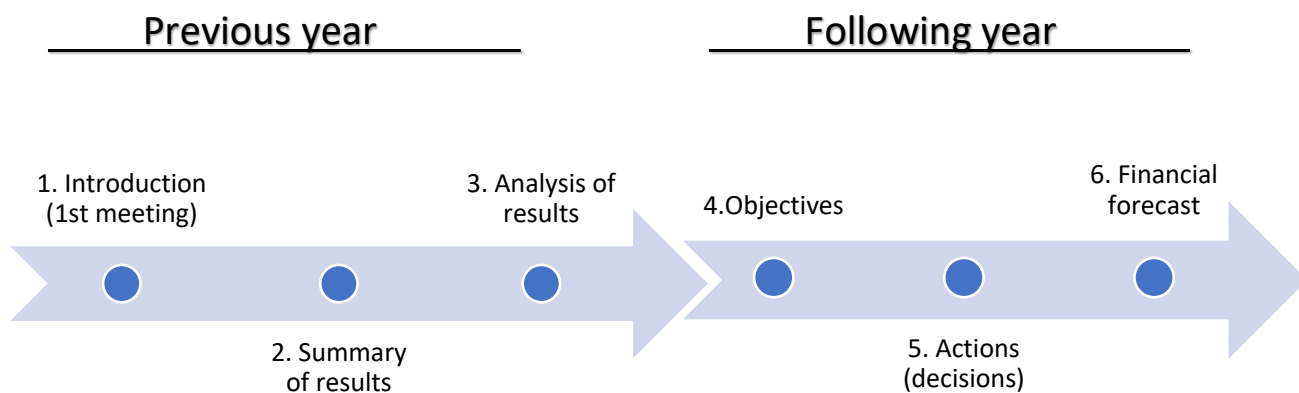

The grade of the Capstone Project constitutes 60% of your Final Exam grade; the other 40% is the group presentation in front of a tribunal.

PRESENTATIONS' OUTLINE

Students should observe the following guidelines when building their CEO presentations.

1. Structure

All sessions will include an analysis of the previous year and a plan for the following one.

2. Content

Students should include the following content in their presentations:

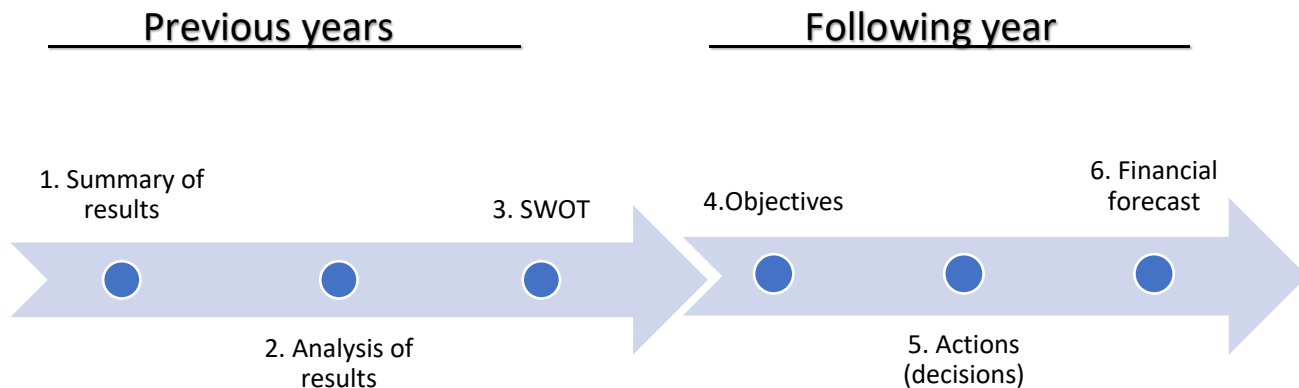

INTRODUCTION TO THE COMPANY (1 ST MEETING ONLY)	
SECTION	CONTENT
Introduction	1. Analysis of the market size (by products and markets). 2. The company's strategy (what kind of company they want to be). 3. Goals in terms of brand perception and market share.

ANALYSIS OF PREVIOUS YEAR'S RESULTS (IN ALL THREE MEETINGS) IT IS A MUST TO ESTABLISH THE CAUSES FOR THE COMPANY'S RESULTS	
SECTION	CONTENT
Summary of results (main figures)	1. Main financial figures (revenue, operating income, net profit, margins, ROE). 2. Sales and market share by product and market. 3. Revenue by product and market.
Marketing (compared to competitors)	4. Product portfolio: products sold in each market and channel. 5. Brand positioning. 6. Distribution: sales managers vs wholesalers and salesforce, PoP advertising and shelf space (retailer margin). 7. Advertising: budget, SoV and SoS and GRPs. 8. Prices (and promotions if employed, analyzing their effectiveness). The goal is to draw relevant conclusions on how these impact demand creation.
Operations	9. Expected and actual production, explaining possible causes for deviations. 10. Effectiveness of productivity policies (SMED, Poka Yoke, preventive maintenance, etc.). 11. Actual production cost compared to forecast or previous years' data, explaining the causes behind the difference. 12. Supply chain management (raw material inventory or stockouts and cost analysis). 13. Transport cost deviations compared to the reference given and why.
Human resources	14. HR turnover and salaries compared to competitors, drawing conclusions on how they affect productivity, and impact of the training department. 15. Salesforce optimization.
Finance	16. Financial statement analysis (balance sheet and P&L), including financial ratios. 17. Cash management (i.e. working capital), explaining effect of collection, payment and leverage policies. 18. Other relevant issues (i.e. inventory effect on financial situation).
FOLLOWING YEAR'S PLAN (IN ALL THREE MEETINGS) OBJECTIVES AND ACTIONS MUST BE SPECIFIC, MEASURABLE AND COHERENT THEY SHOULD BE BASED ON THE PREVIOUS ANALYSIS	
SECTION	CONTENT
Objectives	1. Sales and market share (by product and market). 2. Operating margin, net margin and ROE. 3. Other relevant objectives that the CEO asks for.
Decisions (actions)	4. Marketing: positioning, portfolio, distribution, advertising, prices, sales promotions and shelf space. 5. Operations: capital investment, production schedule, productivity systems deployed, inventory management and supply chain. 6. Human resources: salaries and sales incentives. 7. Finance: OCR and instruments employed (loans, credit lines, receivables/payables, factoring).
Forecast	8. Projected income statement.

FINAL REPORT

1. Structure

The report structure is similar to that of each presentation, including some additional information:

2. Content

The final report should include the following:

FINAL REPORT CONTENT	
SECTION	CONTENT
Summary of results	1. Evolutive (horizontal) analysis of the Income Statement, Balance sheet and main financial ratios (years 1 to 4). 2. Evolutive analysis of sales, revenue and market share by products and markets (years 1 to 4).
Analysis of the last year's results	Analysis of each department's performance in the last year of simulation (year 4). 3. Marketing, operations, HR and finance.
SWOT analysis	4. The company's main strengths, weaknesses, opportunities and threats at the end of year 4 must be addressed.
Objectives	5. The company's main objectives for the following year (year 5).
Action plan	Decisions to be made in each department the following year (year 5). 6. Marketing, operations, HR and finance.
Forecast	7. Projected income statement for the following year (year 5).
